### Professional Summary

React-focused Frontend Developer with experience building modular component systems, handling asynchronous data flows, and integrating external APIs into high-performance interfaces. Familiar with backend development using Python and FastAPI, enabling seamless collaboration across the stack. Obsessed with performance, usability, and writing code that's easy to extend and maintain.

### Technical Skills

**React** | JavaScript | HTML | CSS | Tailwind CSS | Bootstrap | Python | FastAPI | SQL

### PROYECTO ACADÉMICO

**Crypto Dashboard** | <https://crypto-dash-three-chi.vercel.app/> (October 2025)

- Built a real-time cryptocurrency dashboard using React and the CoinGecko API.
- Developed reusable components for price cards, search filters, and asset detail views.
- Managed asynchronous data fetching with React Hooks and implemented API polling without over-fetching.
- Added loading and error handling states to improve resilience and user experience.
- Built a responsive interface that adapts smoothly to mobile and desktop.
- Deployed the application using Vercel and handled version control with Git.

**PetMe (Social Network)** (October 2025 - November 2025)

- Collaborated in a multi-person team and participated in SCRUM ceremonies (sprint planning, daily stand-ups, task breakdowns).
- Implemented the frontend using JavaScript, HTML, CSS, and Bootstrap, focusing on responsive layouts and reusable UI components.
- Took responsibility for key user flows such as account creation, login, and post interactions.
- Developed REST API endpoints in Java + Spring Boot for authentication, posts, and user management.
- Designed SQL schemas and queries in MySQL, ensuring proper relationships between users, posts, and adoption data.

### EXPERIENCIA LABORAL

**Account Coordinator | Arrive Logistics** (November 2024 - September 2025)

- Coordinated freight shipments, ensuring efficient delivery and smooth communication between carriers and clients.
- Managed customer accounts, updated key logistics information, and resolved operational issues promptly.

**Business Development Associate | Helpware** (February 2021 - October 2024)

- Managed and optimized company profiles on Clutch.co to ensure accurate and attractive business listings.
- Delivered customer support and follow-ups, ensuring high satisfaction and timely resolution of client requests.

**Service Desk Specialist | HCL** (October 2019 - January 2021)

- Provided Tier 1 technical support to U.S. clients, resolving software, hardware, and access-related incidents.
- Managed ITSM tickets, consistently meeting SLA response and resolution targets.

### Education

- **Full Stack Developer Bootcamp** | Generation México (Septiembre 2025 - Diciembre 2025)
- **High School Diploma** | Centro Universitario Enrique Díaz de León (2014 - 2016)

### Certifications & Courses

- **Modern React** | Traversy Media (2025)
- **Responsive Web Design** | freeCodeCamp (2025)
- **JavaScript Algorithms and Data Structures** | freeCodeCamp (2025)

### Languages

- Ingles | C1
